To celebrate 2026 Guidance and Careers Weeks in QLD, QGCA invites all Members to a FREE webinar!

Leveraging Digital Tools in Career Development

12-1pm- 6th May 2026,

Leveraging Digital Tools in Career Development- Unpack the potential of GenAI in contemporary career development practice – the opportunities, limitations and ethical considerations. Build a practical toolkit to strengthen student career exploration and pathway planning in your school.

Presented by Renee Moore; Career Development Officer. Student Services and Support Division. James Cook University, Australia.

Renee is a Career Development Officer at James Cook University, where she works with students to navigate pathways and transitions into employment. She brings a strong understanding of career education and student support, developed through extensive leadership experience in senior schooling, including nine years as a Deputy Principal and Regional Advisor with Education Queensland.

Make sure you register at qgca.org.au to receive the TEAMS meeting link. This webinar will NOT be recorded.
